The Chapter may not act for the Society
SCHOLARSHIP REPORT
- No new information, will put in the newsletter. At least 2 scholarships, looking to get a 3rd if Weibel agrees to fund ($1,000). Matt will follow up. Need to push to get students to apply.

STUDENT ACTIVITIES
- Achieved CAR and PAOE, we will be right at 1,100 points and looking to get some more by the end of the year. Russ sent a list of events at Sinclair to assure that every officer at least attends one for K12 leadership awards.
- 7 students eligible to go from capstone project. 6 want to go. ASHRAE pays travel but Russ brought up about providing per diem style support. Conference fee ($25) and hotel stay (2 nights). Rick motions to give $150 per student. Larraine seconds. Motion passes.

YEA
- K12 Initiative
  o Involved in Tech fest as part of the committee
  o Seeking a donation of $500 from the Dayton ASHRAE Chapter
- Working on a collaboration with UD. Reaching out to Andrew Chiasson.

GOVERNMENT AFARIS
- Had a planning session with GAC Vice Chair at end of September (did not report last month)
- Brian Scullin will begin introductory outreach contacts to government area representatives this week with the goal of setting up either virtual/in person meetings with them and/or their staff in the next 0-3 months. Goal for GAC is to introduce chapter to area officials and begin feedback exchange. He has been delaying action on this to some degree because he wanted to wait for the election to occur before starting this process.
- Initial outreach will be to the confirmed U.S. House of Representatives for our area of Ohio who recently won election.
  o District 4 – Shelby, Champaign – Jim Jordan
  o District 8 – Darke – Warren Davidson
  o District 10 – Greene, Montgomery – Michael Turner
  o District 15 – Miami, Clark – Mike Carey
- Further outreach beyond these representatives in the next few weeks will be time permitting on my part.
- He will update the members of BOG of meeting times if/when established to allow them to join if available.

CTTC (CHAPTER TECHNOLOGY TRANSFER COMMITTEE)
- December’s CRC meeting is a joint meeting with MCAA
- Please submit newsletter information so we may get the newsletter out earlier. This will allow us to increase attendance to the chapter meetings.
